wireless communications have become invaluable in the modern world the market is going through a revolutionary transformation as new technologies and standards endeavor to keep up with demand for integrated and low cost mobile and wireless devices due to their ubiquity there is also a need for a simplification of the design of wireless systems and networks the handbook of research on advanced trends in microwave and communication engineering showcases the current trends and approaches in the design and analysis of reconfigurable microwave devices antennas for wireless applications and wireless communication technologies outlining both theoretical and experimental approaches this publication brings to light the unique design issues of this emerging research making it an ideal reference source for engineers researchers graduate students and it professionals

this book presents a novel analysis of the learning of motion event descriptions by anglophone students of spanish the author examines cross linguistic differences between english and spanish focusing on the verbal patterns of motion events to explore how learners overcome an entrenched first language preference to move toward the lexicalization pattern of the additional language his findings highlight the gradual nonlinear process anglophones traverse to acquire and produce form meaning mappings describing motion in spanish the author suggests that as motion event descriptions are not normally the focus of explicit instruction students learn this concept primarily from exposure to spanish given its interdisciplinary nature this book will be of interest to researchers working in hispanic linguistics cognitive semantics and spanish language learning and teaching

until recently the history of debates about language and thought has been a history of thinking of language in the singular the purpose of this volume is to reverse this trend and to begin unlocking the mysteries surrounding thinking and speaking in bi and multilingual speakers if languages influence the way we think what happens to those who speak more than one language and if they do not how can we explain the difficulties second language learners experience in mapping new words and structures onto real world referents the contributors to this volume put forth a novel approach to second language learning presenting it as a process that involves conceptual development and restructuring and not simply the mapping of new forms onto pre existing meanings

this volume creates a multi disciplinary dialogue about clinician patient communication it offers a description of the relevance of culture as a contextual effect that impacts the clinician patient relationship some topics addressed include oncology care quality of life issues supportive survivorship etc it is for physicians nurses hospice and palliative care professionals and public health professionals
